The caffeine in that coffee is equivalent to

255

by the GLC tech team

If The Walking Dead aired for 12 more years,
it still would not have as many videos.
That's a lot of dead(er) zombies.

6 MILES of cable is needed to operate
the Kenosha campus every week.

That is **almost** enough cable to span the distance
that the Racine campus moved this year.

we feel like this is pretty great.)

We partnered with Cory's Project and gave

\$5,707 in

GIFT

to families who have a child battling cancer.

GLC was able to host a **Royal Family Kids camp** to help care for kids in the foster system.

1 WEEK of CAMP

30,000 HOURS

and

45 full-time volunteers

to make a world of difference for

25 CAMPERS.

Totally worth it.

DID

At Great Lakes Church we believe that circles are better than rows.

That's why we meet in groups, led by GLC members,
to get to know one another better.

Great Lakes Church provided an entire flock of chicks to

50 families in developing countries

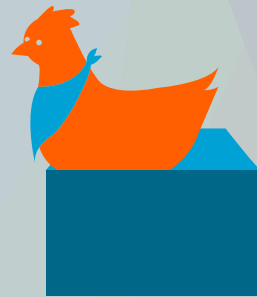

...and not the kind of chicks you supposedly had *flocks of* when you were in high school!

A starter flock of 10-50 chicks can provide a lifetime of opportunities for a family.

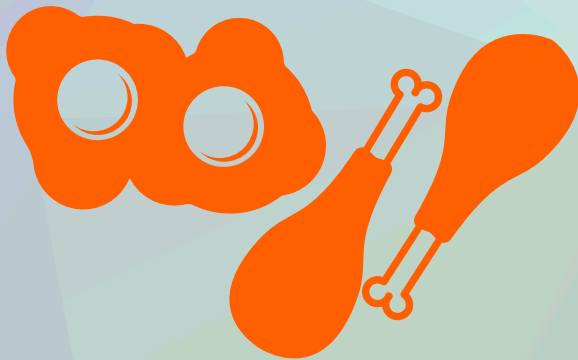

Chickens...

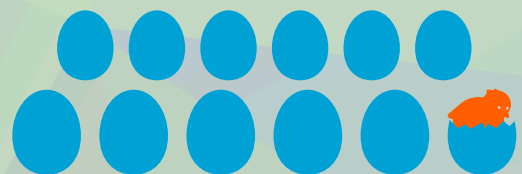

...Require little space.

...Thrive on readily available food scraps.

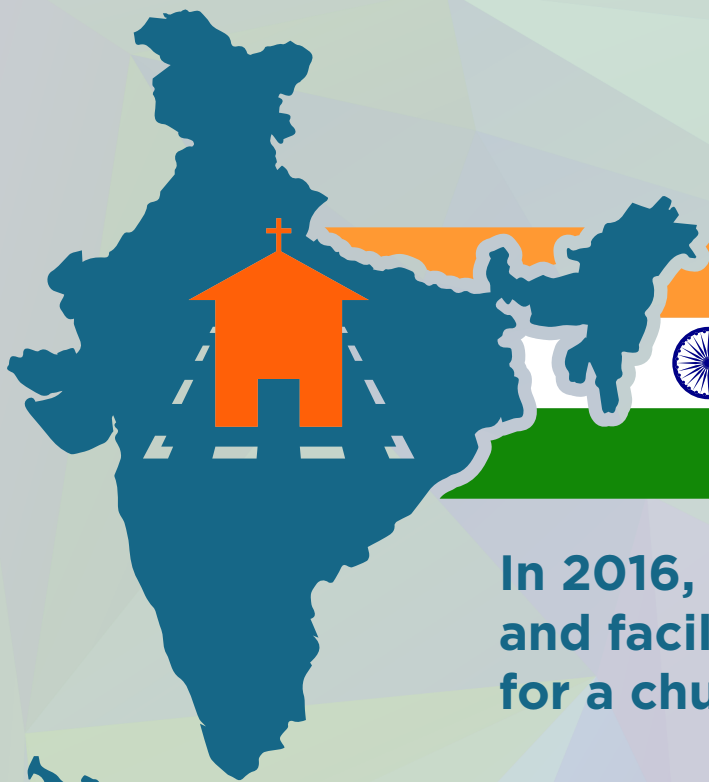

...Provide eggs and protein for nourishment.

...Boost income through sales of extra eggs and offspring.

(A good hen can lay up to 200 eggs a year.)

In 2016, the land we purchased and facility we paid to have built for a church in India was completed.

We are changing the living conditions of 450 people by funding a water project and bringing clean water to a village in Bangladesh!

We provided the resources to prepare land so a home can be built for girls being rescued from the sex trade in Swaziland Africa.
