

We suggest you use the following steps for your family Communion:

1. Talk with your family about how your relationship with Jesus has changed the way you view your life.
2. Take time as a family to pray together. You could pray for your family members, people in need, your church, and each other.
3. Take Communion with your family. Communion is a time of honoring Christ and His sacrifice for us on the cross, and a celebration of our salvation. It is an opportunity for believers to examine themselves and experience forgiveness.
4. Hand out a Communion cup containing the bread and juice.
5. Have someone in the family read 1 Corinthians 11:23-28.
6. Encourage each member of your family to spend a few quiet moments in prayer, reflecting on the sacrifice Jesus made for them.
7. Lead your family in taking Communion.
8. Once you have taken Communion, pray with your family.
9. Remind your family to keep an attitude of thankfulness for what Christ has done for us as you enjoy the day together.
