

The page features four large, expressive blue paint splashes in the corners, creating a decorative border. The splashes are made of thick blue paint with some lighter blue and white highlights, giving them a textured, artistic appearance.

## END OF CLASS GAMES

**This classroom game is more suited for the little kids. Ask everyone to imagine two birds. One named “prrr” and the other named “Pukutu”. If you call out “prrr”, the students need to stand on their toes and move their elbows out sideways. When you call out “Pukutu”, the students have to stay still and may not move. If a student moves, he is disqualified. This student may distract the other students.**
