

## **GUIDELINES FOR GROUPS MEETING ON CAMPUS**

- Please Review Before Requesting/Meeting -

We will do our best to accommodate the needs of each group as requests are made. Please note that we may be somewhat limited in room availability.

Our team will setup meeting spaces and will appropriately space chairs and tables. We kindly ask that you not move any furniture around so we can maintain proper spacing.

You can bring a laptop to connect to the guest Wifi network if you would like. (We won't be providing equipment or tech support).

We're asking groups not to stay later than their designated time on campus so our facilities staff can adequately clean and sanitize after each group meeting.

We kindly ask that you partner with us in this by observing and respecting the following guidelines when you meet with your group on campus:

- If you are sick or have been in contact with someone sick, please stay home.
- Please maintain 6 feet of distance from other group members.
- Please remain in designated areas only.
- We strongly encourage you to wear facemasks while indoors as is recommended by the CDC.
- Food and drink are not permitted during this time.

We will continue to abide by public health and safety regulations, so please know that all appropriate steps are being taken to ensure your health and safety.

Thank you for being on this journey with us!
