

# ARROWHEAD VALLEY BAPTIST CHURCH

Pointing People to Jesus Christ

July 1, 2022

Dear Friends,

We appreciate all the many prayers! The Lord has been blessing continuously! He has brought several visitors since our last newsletter.

The new flooring has been installed in the main hall and dining area. It looks beautiful! The only things left to do for the new flooring is caulking and painting the shoe molding. We are currently working on a completely new sign out at the road. We are also still looking forward to purchasing a new sound system.

The electrical service-connect going into the church building short-circuited a little while back on a Sunday morning. Thank the Lord, we were there and were able to stop it so the church didn't burn down. We were in the middle of Sunday school and it worked out that we were able to continue with the Sunday morning service without electricity. There were visitors and they still enjoyed the service. How wonderful is God's power!

All the families in our church are driving between 35 and 40 miles one way for services. The one family that used to live only 15 miles from the church moved further away but have continued coming. Thank the Lord!

Thank you for your continued support and prayers.

Sincerely,

*David + Susie Harvey*

Arrowhead Valley Baptist Church and the Harvey family
