

GROW VIBRANT FAITH

Using Social Media to Form Faith

Consider ways to form faith that extend beyond the Sunday morning or mid-week congregational experience. Find ways to form faith and build community in ways that can be done at home, online, and on the go. Provide opportunities that can be done individually, in small groups settings and through virtual community. Listed below are some questions to consider and a sampling of what other congregations are currently doing beyond the congregational setting.

QUESTIONS | ASK BEFORE EMBARKING ON SOCIAL MEDIA INITIATIVES

- WHOM do we seek to reach?
- WHAT are their needs and WHAT do we have to offer?
- WHAT difference do we hope we will make in their lives?
- WHAT platforms are best for reaching this audience?
- WHO will manage each platform and what does this involve?
- HOW will we know if what we're doing is successful?
- WHERE will we be getting our content and WHO will provide it?
- WHEN will we engage our target audience in shaping this project? HOW might they own it?
- WHEN will we reflect on our results so that we can make course corrections as needed?
- WHICH social media initiatives or platforms should we primarily focus on and WHY?
