Why these prices? The retreat actually costs about \$160-175 per person to attend, we use student ministry budget to subsidize the cost of each student going. The sooner a student is registered the easier that it is on the student ministry team and the retreat center to prepare for us. Register early it's cheaper for you and easier for me.

What about sibling discount? In the past we offered a special discount for multiple siblings, we will not be able to do that this year since these prices are as low as I can possibly get them. Register early!

Can you refund? Yes, we can refund the full cost up to the week before the retreat. So, register early because you can always get a refund.
