COUNSELING SERVICES, P.A.

### STANDARDS AND POLICIES INFORMED CONSENT

#### Welcome:

Welcome to Abundant Life Counseling Services (ALCS). We are honored that you have chosen to entrust us with this portion of your life's journey. Today marks the beginning of our opportunity to join you in your pursuit of a more satisfying life. As a guide, we will partner with you to discover life beyond "existing" or "surviving" in broken relationships, impaired thinking, painful behavior patterns, and debilitating intense emotions. This informational sheet provides you with the basic services and policies of ALCS. Please feel free to ask any questions that you might have.

#### Services:

As mental health professionals, we are equipped to help individuals, children, families, couples, and groups with a variety of disorders of an emotional, psychological, and spiritual nature. We will employ a variety of educational and therapeutic techniques, specifically affective (feeling), behavioral (doing), and cognitive (thinking), to help you achieve your personal counseling goals. The counseling methodologies used will primarily come from cognitive "talk" therapy, solution-focused therapy, marital and family systems therapy, play therapy for children, behavioral therapy, and didactic (teaching) or experiential use of scripture. While we prefer to approach counseling from an integration of theology and psychology, we will not impose our beliefs on our clients and are capable and willing to approach presented problems without the use of faith-based interventions. We will gladly support you in finding a psychiatrist or medical professional if medication is needed.

#### Our Relationship:

Our relationship with you is a confidential, professional relationship based on trust that is initially given, but ultimately earned from each client. In order to assist you in achieving your goals, we will be asking personal questions about you and your extended family's experiences and belief systems. If you are seeking sex therapy, you will be asked personal questions about your sexuality, sex life, and sexual behaviors. While some clients only need a few sessions to achieve their goals, others require months and sometimes years of treatment. As a client, you have the freedom to end your treatment at any time, but we do ask that you participate in a termination session. Our sessions may be psychologically close, but the relationship is not social. Our contact will be limited to counseling sessions except in emergencies. You can leave us a confidential message and we will return it as soon as possible. However, if you urgently require assistance, please call your physician, 472-help, or the police. While it is not possible to guarantee any specific results regarding your counseling goals, we will work diligently toward the results you desire.

#### Supervision:

All of the counseling interns who are employed by Abundant Life Counseling Services, P.A. are supervised by a Licensed Professional Counselor Supervisor and a Licensed Marriage and Family Therapist Supervisor certified by the Texas State Board of Examiners of Professional Counselors and the Texas State Board of Examiners of Marriage and Family Therapists.

## Referrals:

As mental health professionals, we adhere to the highest ethical standards and will keep your best interest at the forefront of all we do. However, if you are dissatisfied with our services at any time, please express your concerns to us. If we are not able to resolve your concerns, we will gladly provide you with a list of referral choices. *Please note that you will be responsible for contacting and evaluating those referrals and/or alternatives.* If you have a complaint regarding malpractice, this can be reported to the state board, based on your counselor's license:
