

OFFSPRING

6

Not only has he sired many Advanced Eventers, including International horses, he has produced no less than 6 Graded Approved stallion sons currently standing in the UK and another in Zimbabwe. Two of his best known international horses are Headley Britannia - winner of

Blenheim and the prestigious Eventer's Grand Prix, and Henry Tankerville - winner of Compeigne. Between them they have won over 900 points already. Remember these are just two examples of the many Advanced Jumbo offspring.

As if this wasn't enough there are dozens of offspring competing at Intermediate level, dressage horses winning at Prix St George & Intermediare, show jumpers that have reached Grade A and show horses winning Championships at Britain's major County shows.

So remember ... when choosing a stallion for your mare this season, look long and hard at his offspring. He is only as good as his performance and that of his progeny. Jumbo has proved his reliability both as a top-class competition horse and as a producer of talented, trainable young horses with all the attributes to succeed in their chosen discipline. His offspring are sought-after the world over. Frozen semen is now being shipped to the USA and his fertility is exceptional.

Black • 16.3hh • IDxTB • 9½ bone
Foaled 1984 • Graded SHB (Elite), BWBS & ISHR

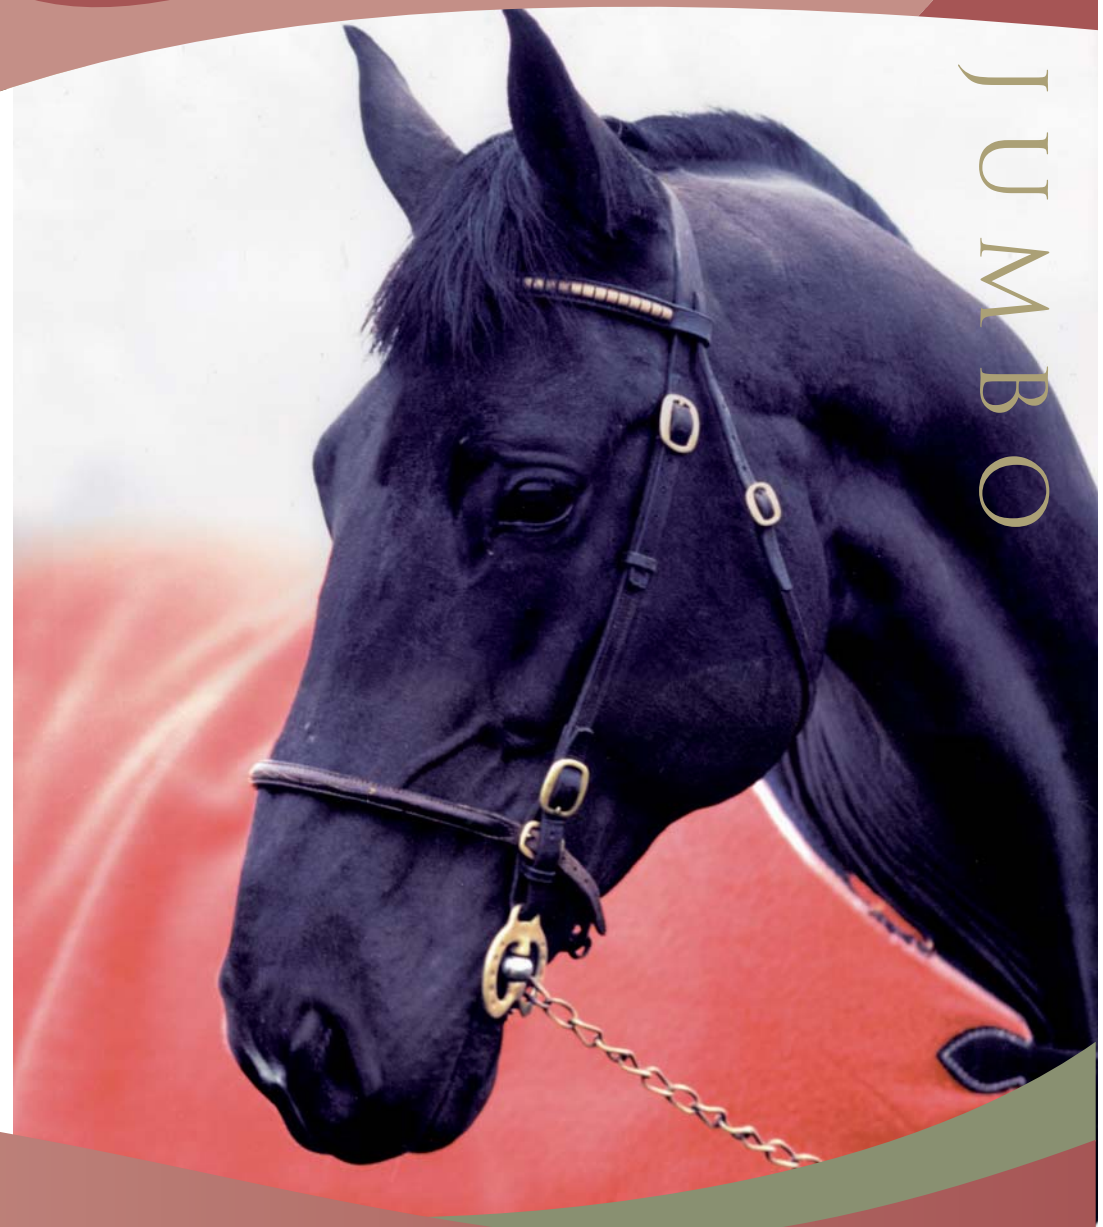

SUCCESS BREEDS SUCCESS

Few stallions have the ability to compete internationally at Advanced level and then reproduce their temperament, talent and trainability time after time in their offspring. Jumbo's results speak for themselves...

He competed at Advanced level with Andrew Nicholson winning many events including the 7 Year Old Young Horse Trophy at Lion d'Angers (France) in 1991 – the only British bred stallion to have done this. He then went on and won the Dressage & Show jumping Championships at Blenheim. He quickly upgraded to Advanced level.

He has also sired champion working hunter ponies, advanced endurance horses and champion young hunter at the Royal, Jumbo himself whipped in for the Biscester hunt and was a member of the hunt relay team that competed at the Royal. He has show jumped with William Funnel between eventing, winning many foxhunters.
