

Prayer Guide July 29, 2020

Family Requests

Ron Steadman – He and Jane are in Colorado this week and next for some rest and relaxation. Pray for Ron's continued healing of the arm. He goes back to orthopedist for follow up August 18th. Pray also for Ron and Jane's health and safety while in Colorado and for travel mercies when they start their trip home.

Wanda Clemmons – She was back in ER last week because her legs were extremely swollen. The doctor thought she had cellulitis. However, the tests showed there was no infection so they think now that it's a circulation problem. She has Congestive Heart Failure which could be a contributing factor. The doctor did more tests this morning and she is home now resting. Doctors won't know how to treat the swelling of her legs until they get the results of the tests they have done. Pray for accurate diagnosis and treatment options.

Daniel Pinkston – (Ed and Greta's son) He and his family left California Friday, July 24th for their move to Kentucky. Pray the move went smoothly. Pray for the teenage daughter who is very unhappy about being uprooted. Pray for Daniel's wife as she settles into their new home and surroundings. Pray also for Daniel as he starts his new position at Ausbury University.

Pastor Robert McGee – His sling is off now and he is still having physical therapy. He will see his orthopedist July 31st for his post op progress report. Pray for good report and for a full and complete recovery.

Donna Swift's Family – Continue to pray for the family. They are doing all the necessary things that must be done and are sometimes overwhelmed. There will have some difficult days ahead.

Ted & Sheila Sulcer – They have good days and bad days and still tire very easily. The doctor said it would probably be that way for awhile. Ted is still on oxygen 24/7 and the doctor is hoping that he can come off the oxygen by the end of August. Son in law, Randall is the same; good days and bad days and tires easily. Pray for full recovery for all. Sheila stated they are so thankful for the prayers and can feel them.

Chris Rennie – Her stitches have been removed and recovery is progressing well. Today she is experiencing vertigo and must remain very still in her recliner. Pray this is a passing thing and nothing serious. She will be in the sling for another 4 weeks. She will have physical therapy once a week for 4 weeks then twice a week for 4 weeks. Pray pt will go well and for regaining full range of motion.

Lane Seab – (Julie Hettel's father) He continues to do well with no more nose bleeds. Praise the Lord!

Pastor Brent, Pastor Robert, Pastor Daniel – Continue to pray for our pastors.

Glenda Moss – Her pump was removed last week. Therefore, this week is an off-week for chemo. She goes back August 3rd for the next treatment. She said she is feeling really good today. Praise Jesus! Pray for her strength and continued endurance as she continues treatments until the end of August.

Crystal Gunlock – (Randy & Glenda Moss' daughter) Continue to pray for no further problems with her heart.

Pray for the BVBC Church Staff
