

## Prayer Guide September 9, 2020

### Family Requests

**Bill Gilbert** – He is having a TAVR heart procedure done today to replace an aortic heart valve that was put in 7 years ago and has now failed. Please pray for the surgeon and all who attend to Bill. Pray for Bill for a successful surgery and quick recovery. Pray for Shirley for peace and comfort as she waits to receive word from the doctor when the surgery is finished and all is well. **We just got word that the procedure went very well. Bill is now in recovery and will spend at least one night in the hospital.**

**Don Moor** – Continue to pray for healing and comfort in physical movement and daily living.

**Lois Melroy & Daughter Michelle Douthit** - They are both healing. Lois was supposed to have cast/splint removed Tuesday. It was rescheduled to next week. Michelle was walking her dog a few days ago, got the leash wrapped around her legs and fell. She didn't break anything but did open some of the stitches on her arm. Pray this didn't do harm to the surgical site. Pray also for a full recovery for both Lois and Michelle.

**Sherry Sivey** – (Kris Melonis' sister) She had trouble breathing for months and her heart rate kept falling. Thursday it fell to 25 and the doctor had to do an emergency pacemaker insertion. When the procedure started, her heart stopped. Her heart was restarted and the procedure was completed. She lives alone so the family is concerned. Please pray for her safety, healing, and that the pacemaker will stabilize her heart.

**Glenda Moss** – Because she was continuing to run a fever, the doctor saw her this morning. Her blood work was good, the anemia is gone, so they think her problem may be that her mouth still isn't healed. She has to take another round of antibiotics. Pray that this will heal her mouth and take care of the nightly fever.

**Pastor Brent, Pastor Robert, Pastor Daniel, Deacons** – Continue to pray for our pastors, deacons, and all leadership as the church moves forward with programs.

**Andrew McGee** – (Pastor Robert's father) He had pneumonia and it has not healed. The doctor did a scope of the lung and is waiting for the results to determine next steps. Pray for wisdom for the doctor regarding treatment options, pray for healing for Mr. McGee

**Ted & Sheila Sulcer** – Ted is doing better. He has been getting out, trying to do a few things and if he gets winded, he stops to get back on oxygen. Please continue to pray for Ted for overall health and healing.

**Crystal Gunlock** – (Randy & Glenda Moss' daughter) The doctor wants her to continue the current medication for a couple more months before they add another medication. The disease that she has causes a disconnect between the brain and the heart and therefore thinks that everything she does is a workout, thus increasing her heart rate. Pray for a way to correct the disconnect and that the medication will assist with this.

**Pastor Robert McGee** – He has an appointment with the physical therapist tomorrow and expects to be released. Pray to that end.

**Denise Sanders** – (dear friend of Allen & Mary Hughes) Pray for Denise and the family as they lay their husband, father, grandfather, son, brother to rest after his passing with COVID.

**Rick & Crystal Harms** – Pray for healing for both of Rick's eyes. Pray also for healing of Crystal's shoulder and arm.

**Ron Steadman** – He's is continuing the physical therapy and will see the orthopedist in another week to see if the break is completely healed. Please pray that it is and that he will be free of the sling.
