Duped by Religion  Luke 20:45-21:4

1. The scribes were the self proclaimed elite of the elite. They focused so much on their status with men that they forgot completely about their status with God. How do you see ways in which religious hypocrisy can creep into our lives? Why should we be more focused on the inward than the outward?

2. As Jesus saw the window giving all that she had he told the people listening that she had given more than anyone else because it was all she had. It begs the question, how do we know when we’ve given enough? Must we give so much that we live in poverty?

3. What is your main hindrance when it comes to giving? How can we fight against greed and materialism?

4. “Consistent, generous giving is the best test of spirituality.” Agree/ disagree? Why/why not?

5. How do our finances reflect our relationship with God?
