

Donkey Puppet

Materials

- ☐ One set of Puppet Pieces for each student (following pages)
- ☐ Paper lunch bags
- ☐ Glue
- ☐ Black, gray, or brown yarn cut into 3-inch lengths
- ☐ Crayons or markers
- ☐ Scissors
- ☐ Optional: 1-inch plastic wiggle eyes or buttons

Instructions

Print and cut out one set of Puppet Pieces (eyes, ears, nose, mouth) for each student, or have them do the cutting. Have students color each piece. (You may want to use wiggle eyes instead of the paper eyes.)

Have students lay their paper bag flat with the flap facing up. Have students spread glue on the top of the nose and position it about a ½ inch over the edge of the flap. Next, help students lift the flap and glue the mouth underneath, lining up the top edge with the crease under the flap. Have students glue on the eyes and ears.

Give students several pieces of yarn to glue at the top of the bag for a tuft of hair.

Allow glue to dry before using the puppets.

Suggested Discussion

God has done so many miracles! And the Bible only tells us about some of them. One of the most interesting miracles is when God made Balaam's donkey talk. Normally, animals can't speak the way humans do, but this time, God used his power as Creator to make a donkey talk. God is omnipotent. That means he is all-powerful to do whatever he wants.
