

***How to Study the Bible for Spiritual Development*** is a free 5-Week Course designed not only to provide you with tried-and-true points on how to setup a daily Bible study reading plan, but primarily, it is intended to equip you with essential tools for drawing out of Scripture that which God has willed for your spiritual development and for His glory--certainly something most of us could invest more time on.

Many of the most basic principles for proper Bible interpretation will be discussed such as: *The Science of Hermeneutics, Exegesis vs Eisegesis, The Perspicuity of Scripture, Genre Identification, The "Analogy of Faith Principle," The Real Meaning of "Literal Interpretation,"* and more.

Do these topics seem too technical or cumbersome? They're not. These are mere titles of basic Bible study principles that we can all apply for understanding God's Word better. Come join us for this course at **Midwest Bible Church at 9:30 a.m. on Sundays**, as we spread the fame of Christ through discipleship. Don't forget to bring a Bible, a pen, a notebook, and a good disposition for learning, as there will be homework, and in-class hands-on assignments. You can do this! *Soli Deo Gloria.*
