Proverbs 23:7a

Great and wonderful prospects are before us in this New Year! Can you sense them? Do you believe in them? I hope that you do, because that means you have a positive mindset and heart-set about the present and the future. That's what it will take if you're going to be a fruitful participant in life. Out of your belief grows the existence of the possible and the impossible! *The impossible???* What I mean by this is that by having Jesus Christ as our partner in thought, heart, and action – He makes what man would consider impossible – POSSIBLE! It is our responsibility to have faith in God and to believe in the impossible even more than the possible, because our belief in such says that we look to God in all things and for all things – and by faith we know that He lacks nothing and can do anything!

What is your mindset and your heart-set about life in general? What about your personal life? Your family life? Your life in the membership body of Christ? From your viewpoint, do you believe for things besides the norm; things beyond the status quo? If you don't, I encourage you to make a life-changing shift in your way of thinking, and exercise positive affirmations in your mind and in your heart. We're talking about living and breathing in our belief for *miracles and works* that - 'can be' because 'God is' – and walking toward their existence by faith. *D.L. Moody*, an American evangelist and publisher of the 1800s said, "*If God is your partner, MAKE YOUR PLANS BIG!*" *May your mind and your heart stay in partnership with Almighty God for all of your life...forevermore.*

*Happy New Year!**Pastor Daniel Simmons*
