

Here's a rather bold statement: you can instantaneously be in direct communication with God at any time, in any circumstance and about anything! This is not communication shrouded in hard to decipher religious jargon or mystery that leaves you wondering if you "got through" to Him. Rather, this is communication that makes you fully confident that God Almighty has truly heard you and is actually responding back to you in a way that is clear, compassionate, understandable, unambiguous and fully actionable on your part. This is unrestricted communication with God that enables you to tell Him what your heart is feeling and what your head is thinking. Additionally, it allows Him to share with you what's happening in His heart and what's going on in His head. True prayer is two way communication between God and you. No doubt about it, God wants to hear from you. No doubt about it, God is a "talker." 🗨️ No doubt about it, when He speaks you need to listen. So then, how will God speak to those wanting to talk with Him and wanting to hear back from Him? In some pretty wonderful ways that we'll learn about today.
