**Haggai After** spending 70 years as captives in Babylon, the Jews were allowed to return to Jerusalem. The Persian emperor Cyrus issued a decree: the Jews were to rebuild the temple of the Lord, Zerubbabel, who was of the royal line of David, led the Jews back home. But they became discouraged and quit working on the temple and started working on their own houses. At this time, a new prophet named Haggai speaks up: "Consider your ways!" Because the people have ignored God's temple, God has withheld rain, food, and prosperity. The solution: get back to work on the temple.
