# The Facts About Project Upgrade

Project Upgrade is a church-wide fundraising effort to improve our aging facilities, projections system and technologies. Over the next three months, our goal is to raise \$220,000 to cover these necessary updates.

Here's how we plan to put those funds to good use:

## **Facilities**

After 13 years of use, the carpet in the education building is worn and stained. Our goal is to restore the beauty of our facility by replacing the carpet with a more durable laminate flooring that is easily cleaned and can stand up to high traffic.

These hallways have seen our children grow and mature. It's time to give them a new life of their own.

From dynamic worship to greater sermon impact, projectors are fundamental elements of our church service.

# **Projection System**

Our current projectors are in desperate need of replacement. With your help, the goal is to install three new HD projectors – including a new center screen – that will provide better sight lines and a richer experience for years to come.

### **HVAC Controls**

Improved comfort with greater efficiency. By modernizing the HVAC controls in the Education Building, each room can be individually adjusted or turned off when not in use.

# Follow Project Upgrade Online

To donate online, track our progress, see testimonials and more, visit the Project Upgrade website at churchatcanyoncreek.com/project-upgrade.

#### **Wireless Network**

Dependable wireless internet access has become an essential component for ministry and education. Our current equipment is struggling to handle the increased loads our staff and members place on it each week. With a new commercial-grade system, we can provide greater access and capacity throughout the campus.

An increasing number of members are using online Bible applications and other wireless technologies each Sunday.

#### **Reserve Fund**

Systems break. Plumbing fails. Roofs leak. To help maintain our facility when the unexpected happens, a reserve fund is needed to cover these sometimes-costly expenses. Your donations will help keep The Church at Canyon Creek running smoothly as we minister to our community.
