

I feel honored and privileged to be called by God to work with an incredible staff. As many on staff, I too wear a few different hats. As Associate Pastor it is my job to both support the vision of the Lead Pastor and help equip those called to serve here at Central Faith Church. As a small group director, I desire to see the body of Christ connected and growing as we all do authentic Christian life together. I also oversee the facilities. God has given us an incredible space to serve the community out of. And with that comes, construction, and functions, and maintenance of the building. Of course, I do not do all of this alone but get to be a part of an incredible team of people.
