

# COVID-19 PROCEDURES FOR SYMPTOMS OR A POSITIVE TEST

## IF SOMEONE IN OUR BUILDING TEST POSITIVE FOR COVID-19

Health Department required us to have anyone who was within 6 feet of the person (if they didn't have a mask and protective eye wear) to self-quarantine for 14 days. During quarantine if they have any symptoms, get tested. They can not return until there is a negative test.

## CHILD (if they come within 6 ft of someone who test positive)

The children in the classroom will be required to self-quarantine for 14 days and not attend the daycare. At that time your tuition will be 50% for 14 days to keep your space available to return.

## STAFF (if they come within 6 ft of someone who test positive)

Will have to self-quarantine for 14 days.

## IF A HOUSEHOLD MEMBER TEST POSITIVE

The child/staff must get tested. If negative or positive, child/staff must stay home for 14 days.

## IF CONTACT WITH SOMEONE WHO TESTED POSITIVE BUT NOT IN YOUR HOUSEHOLD

This will be on a case by case basis pending: if there was protection, how long exposed, what precautions were in place, outside or inside, etc...

## IF CHILD/STAFF HAVE SYMPTOMS

They must stay home for 72 hours. Do not attend with any of the following symptoms.

Symptoms are:

- Fever (100 without medication), cough, congestion, sore throat, shortness of breath, fatigue, body aches, loss of taste or smell, runny nose, vomiting, nausea or diarrhea.

This may not be the extent of our health and safety measures taken due to continual updates from our local Health Department and CDC guidelines.
