

How to make a Treasure Chest

What you'll need:

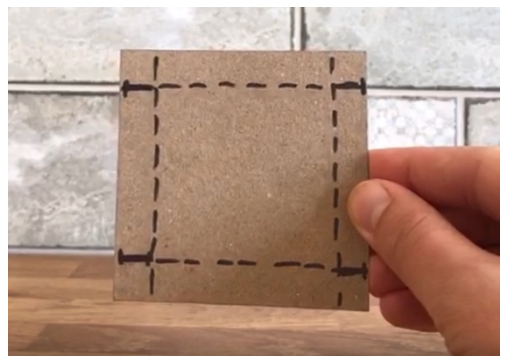

- Net of chest OR brown paper/cardboard
- Chocolate coins/treasure
- Gold paper
- Decorative stickers etc.

If you have a treasure chest net:

1. Fold along all of the lines to make them flexible
2. Put the bottom pieces together with the little pieces on the outside, tuck the flap into the bottom so it makes an envelope shape
3. Tape the inside edges so it's secure
4. Fold the lid over and slot into the hole

If you are using brown paper/cardboard:

1. Get two squares of paper, with one slightly smaller than the other. Draw this pattern:

2. Fold along dotted lines and snip the corners, so it looks like this:

3. Sellotape these in and repeat the same thing with the smaller box. Then Sellotape these together like this:

For both:

4. Write on your gold piece of paper 'the Kingdom of Heaven is like a treasure, Matthew 13:44'
5. Put the paper into your treasure chest
6. Pop your gold chocolate coins (or other treasure) into your chest!
7. Decorate however you like.
