Elders' Newsletter

Structures, structures, structures! They are everywhere. From buildings, harbors and streets to the structures of trees, plants, bugs and people. Anything that is living needs structure to carry out its purpose.

Even churches have structure (and not just the building). We look this week at the structure of the very first church that Jesus himself put together, recorded in Acts 2:37-47.

He has given it structures that define it and help it grow. These structures are for our good and help us to grow along with the church. In a message called, "Becoming Structure, Belonging to a Local Church", Eric Holmgren will help us consider the importance of church structure and how we build on it.
