## ATA Bible Distribution

October has been a great fruitful month. I do thank God in that covid19 regulations were eased up in my country and once more again we could run our ATA program without limit.

I want to begin by thanking God for those who gave towards the Bible distribution project. The Bibles were a great blessing. May our great God bless the hands that gave.

Following are some of the pictures and stories of those who received Bibles

On this picture to my left is a

brother who was born a Muslim. He came to the Lord but did not receive any Bible training up to until ATA came to his Buhwa mine compound. He had never owned a Bible in his life. He says ATA has helped him so much and is looking ahead to do great gospel exploits in his community.

The next picture shows ATA Bible students receiving Bibles through their teacher Mr. Chingwe. It was a moment of joy. It

wasn't easy for them to go through the ATA training program using borrowed Bibles.

The above Youth are beneficiaries of the ATA Bible distribution project. They are born in Johane Masowe sect. Their families don't believe in the Bible but in the so called " Spirit movement faith" . These Bible students had never owned Bibles. Through ATA Bible centred training these youth are now like Shadrek , Misheck and Abedinigo. They are unshakable and have a great future in helping to bring change their Gundekunde community

## ATA Campaigns and Bible course

I also managed to visit some places in Mberengwa where I was invited to some interdenominational meetings at Mataga growth point I managed to launch as well as enrol 34 students for ATA Bible course. At Murongwe I also did some campaign and enrolled 28 students, My last campaign was at Mataruse area where we are expected to be enrolling some students in the near future.

In order to reach mbuya Nehanda we camped at Buhwa mine where we had previously opened a center . By Gods grace we opened another centre at Buhwa mine with 12 new students. At Mbuya Nehanda we opened a centre with 28 Bible stydents.. At Vugwi we were more than welcome, we started a centre which was attended by15 students , At Gwemombe we were disturbed by the bad weather . The wind speed was too high. Temperatures were too low. The turn up was very bad we therefore ad-journed to a later date
