

CHANGES ARE COMING TO BEAVERCREEK CAMPUS

"Jesus is leading us to utilize the entire 10 acres to reach more people. Join us as we expand the mission. The harvest is still great. The mission still matters. Your work is still needed. Let's keep following Jesus together."

Pastor Dale

The last Sunday service at our Beaver Creek campus will be April 10th...so we can pursue a much larger Beaver Creek vision. We believe God is leading us to repurpose these resources for greater Kingdom impact. Our calling is to make disciples, not just for operating Sunday services. It is our desire to develop more activity and ministry at Beaver Creek, not less.

"I believe what God has begun here at Beaver Creek is only just the beginning and He will be faithful to fulfill His mission to reach people as we continue to obediently follow Him. Great days are ahead!"

Pastor Brian

The Vision

- ◆ We are stopping Sunday services at Beavercreek because we believe Jesus is leading us to do so
- ◆ After 18 months of effort, we are seeing very little missional progress, while Sunday services require a tremendous investment of resources (people-time-effort-money)
- ◆ We believe Jesus is leading us to utilize the entire property for Kingdom use not only the main building for a few hours each week. We are committed to disciple making, not service making
- ◆ Foothills exists to reach 1000s of unchurched people. We believe he wants to utilize the entire 10 acres for larger Kingdom impact
- ◆ It is our desire to develop more activity and ministry at Beavercreek, not less
- ◆ Our strategy as a church is to chase after what God blesses. We see God blessing the breakfasts - potlucks - men's events - women's events - evening firesides, etc. We sense God leading us to do even more
- ◆ We see these events accomplish more Kingdom results. This shows that people are longing for different connections than services at this site. People can find services at Molalla or online...what they crave is connection
- ◆ Two years of COVID has changed our world and the strategy of the church must evolve to continue being effective
- ◆ Beavercreek campus provides opportunities for ministry and connections in a unique environment that the Molalla campus cannot provide
- ◆ Our focus will be on the development of the entire property for ministry
