

MISSION

Dear Ministry Partner,

Thank you for your faithful support of the ministries of Evangelical Church Missions. Today are certainly uncertain days as the Covid-19 pandemic has encompassed the globe. No doubt all of you have been affected by this in some way. Some may have lost jobs or at least been furloughed. Please be assured your continued support of our missionaries is always greatly appreciated especially in these difficult days.

As you know this pandemic is not only having adverse effects on our country. This is greatly affecting our brothers and sisters in Bolivia, India, and Liberia. These nations have closed markets and other businesses which are greatly impacting the health and well-being of the people in these countries. Most of the people in these countries live from day to day depending on the earned income of that day to go to market and buy enough to eat. Working every day and going to the market daily is essential to eat. During a lock down they have no way to work or get food.

Therefore, we are establishing a Covid-19 Benevolence Fund. This fund will be used to help our missionaries and the national churches in Bolivia, India, and Liberia to help assist people to get food and needed medical supplies. I would ask that in these trying times that, we who have been so greatly blessed, will not forget those who always live on a day to day basis without any government safety nets.

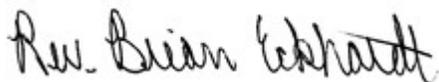

I simply want to ask for you to remember the plight of your brothers and sisters in these countries. Please pray for them and consider giving to this fund as the Lord leads.

Thank you for considering this. May God bless you and keep you safe and healthy.

And my God shall supply all your needs according to His riches in glory through Christ Jesus.

Philippians 4:19

Sincerely,

Brian Eckhardt
