Victoria Christian Assistance Ministry (VCAM)
Established in 1986 as a Christian non-profit organization. FUMC Victoria was one of the original churches that came together to get this organization up and running. VCAM provides a broad range of services that are typically requested of churches. They operate as a safety net for families and individuals in crisis situations in our community. The goal of this organization is to help our community members with their most basic and if possible, more extensive needs. For information, visit www.vcamvictoria.org
