

## **Jonathan Autrey, Missionary to the Dominican Republic**

God bless you all! Our country is pretty much locked down and under a sort of Marshal Law; from 8 pm to 7 am, no unofficial business is allowed on the streets. Supermarkets, banks, and a few fast food restaurants are on very limited schedules and are serving people though doors or one at a time. Many of our church people have been without work now for as long as 3 weeks and have been relieved from their jobs indefinitely. I foresee essential needs such as food and purified water being in danger of short supply for their households. The country is trying to contain and slow the spread as much as they can.

Our family is fine, but we are torn at how this is affecting the people of our church! Please pray for us!
