

# THE BOHMAN FAMILY

## AFRICA FIELD DIRECTOR

July 2021

Dear Praying Friends,

While most of us are enjoying a "back to normal," much of Africa is closing back down because of a third wave of Covid infections. The map at right shows the severity of infections with the darker colors. This has posed a major problem for the African

governments, as well as for our missionaries, as health facilities are being overwhelmed and hospitals are overcrowded. On the other hand, more people have suffered from the effects of the restrictions than from the pandemic itself! Please keep Africa in your prayers!

However, we were thrilled to have in-person classes this year at Candidate School with fifty-seven missionaries in attendance - the picture at left shows the "Africa group!" The missionaries in the photo are going to the countries of South Africa, Ethiopia, Nigeria, Ivory Coast, Malawi, Ghana, Uganda, and the Sahara region.

A couple weeks later, Camp BIMI was a tremendous success with thirty-eight students! Our family was involved, assisting in various parts of the camp. I enjoy teaching in the afternoon sessions which are geared for giving practical, hands-on experience with situations that may be encountered on the mission field. We have taught auto maintenance, survival skills, first aid, and international wiring. Next year, we hope to add even more classes. If you know of someone interested in missions, have them visit our website below for more information!

Thank you for your prayers as we conclude another fantastic summer. I look forward to traveling to a couple countries in Africa before the end of the year!

Until all nations hear,

*Eric Bohman*
