

Uruguay In A Covid-19 World

I am sure you all, like me, are tired of this quarantined life and talking about this virus. Let us get back to normal. But for those that are interested, let me share with you a little bit about what is going on in Uruguay during this time.

Uruguay, like most of the world, has asked us to self-quarantine except for going to get necessary things. Schools, sports, many businesses, as well as churches have been shut down. We have been unable to congregates as a church for five weeks now, but it feels sooo much longer than that. We have been producing weekly videos and maintaining contact through WhatsApp. We have also delivered cookies to the children and teens who attend our church services. We have been looking for ways to maintain relationships and minister to people during this difficult time.

Thankfully Uruguay has not been severely impacted by the virus. There have been a little more than 600 cases in total. Everyday there are around 10-15 new cases in the country. Our town, Rocha, has not had a single case up to this point. Things are slowly starting to open back up in our town and we are hoping that we will be able to begin meeting together to worship very soon.

Thank You

I also want to say thank you to each of our supporting churches. I know that this time has been financially trying for many churches. Missionaries all over the world are wondering if their support levels will remain the same. We have been blessed with a great team of supporting churches that have continued to faithfully support us. Thank you! We have also been blessed by many churches who have sent us notes letting us know that you are praying for us and will continue to send support during these difficult days. We are often overwhelmed by the sacrifices that many make so that we can be on the field. Thank you for loving us and for loving the people of Uruguay.
