## The Lapatos in Austria/Bavaria

---

January-February 2021

---

### Dear faithful supporter,

We hope everyone is well and staying healthy. We have been surprisingly healthy throughout January and February. We even had several nice days, where we were able to spend a lot of time outside.

Since the end of February, we have been in a lockdown. It has been dragging on and on. It has made ministry difficult. We still have not been able to start our planned ministry for children and discipleship has also been impacted.

Everything at church is going well and attendance is steady. We have had one guest coming for a long time now. He is still a little distant, but it takes time for people to open up here. Another family comes off and on. We are praying for several people to trust Christ soon. God loves the people here so much, and we want to see as many as possible saved. It looks like the lockdown may be ending soon and we hope to get out more than ever to share the Gospel.

We have slightly expanded our Mission's program at the church. We have sent some offerings to a couple ministries. We have also began promoting missions more and Kim and the ladies have set up a map and are keeping us informed of various ministries weekly. We are praying about doing more to support missionaries and considering a small conference at some point this year.

We hope to come to the US on a furlough this Summer, but are waiting to book meetings and Buy tickets until we know more about travel restrictions.

Gottes Segen  
Lord bless,  
The Lapato family
