## God's Goodness and a Gallbladder

In spite of COVID, God is still working and doing mighty things!! We have had more churches partner with us to reach the UK in June and July than in the first part of the year! In addition, many of the churches we have been to have expressed interest in supporting us as well. It is tremendous to see the hand of God working even in the midst of these troubled times.

At the beginning of August, Beth had her gall bladder removed. Thankfully, we caught the problems early and everything went routine. She's been recovering well since, and we appreciate all you prayers for her! Due to Beth recovering, I've had to do some traveling on my own. This reminds of when I first started before Beth and I got married. I am glad to have her and the kids back traveling as a family soon!

## Leaving Update

As you know, we purchased our tickets in January (before the world went crazy) and were praying we would still be able to leave on September 23, 2020. Unfortunately, we are having to move our tickets. After much prayer and council, we are moving our tickets to the end of November. This will give us the chance to visit more churches and share the need of the UK and Europe.

We are going to begin the process to apply for our visas within the next couple of weeks! Would you please pray with us that our visas will be processed smoothly? Also, we do need to raise more support. Please pray that God would provide what we need before we leave in November!

Thank you,  
Sam, Beth, Ruby, and William Quinn
