

*Urgent Prayer Request*  
**TAJIMAS SERVING WITH BAPTIST MID-MISSIONS**  
*IN JAPAN January 2019*

Dear Praying Friends of the Tajimas,

Greetings in our precious Savior's name.

Here is an urgent prayer request. Nobby had an operation in early January to remove a tumor from his left underarm. After the operation on January 11<sup>th</sup>, the doctor sent the sample to the test lab. And found out he has cancer. So he recommended us to go to a hematologist in another major hospital. He has one of two aggressive lymph cancers (still testing for this). So he will have to be hospitalized from January 29<sup>th</sup> until probably the end of February at least. So he can not take a short furlough to attend the Mission Conference of one of the supporting churches in Florida. It will also be hard for church operations for awhile. We thank the Lord that one of the nearby pastors is going to send his sermon CDs while Nobby is in the hospital. But please pray that he can be healed and released from the hospital as soon as possible.

Nobby needs to rearrange his Bible School classes since two students will graduate this year, among other things he is responsible for.

We deeply appreciate your prayer.

Your missionaries,

Nobby & Bev Tajima
