Subject: Thatcher March 18 2020 update

Dear Friends,

We continue to press forward as we can in the ministry here in Waterford, Ireland. The global outlook is basically the same around the world and the impact for us all in ministry is challenging to work around and through this global quagmire. We desire to operate by the Spirit's leading in what we are doing. All of us are being severely limited, but we are grateful that our God is not limited.

We wanted to let you know that we are ok and that the Lord has kept us in good supply of food, clothing and shelter. Most folks, I am sure, are praying to stay in good health. Our health is generally good, though we do have a few with autoimmune thyroid issues that have been ongoing, etc.

Most folks, I am sure, are praying for the finances to keep up in their churches and ministries. The Lord continues to get us through from month to month. We are praying for all of you as you are all praying for us in this area. We are praying for direction and creativity about each aspect of our approach to ministry here in Waterford at our church.

Today Lisa and I were able to take some activity/gift bags to each of our church kids to encourage them in the midst of all the stuff they are hearing in the news.

So, thanks for praying with us and for us. Continue to keep us in prayer during these days and know that we are praying for you as well as we understand that we are all pretty much facing the same issues.

God bless,

Don and Lisa Thatcher
