

Dear Supporting Friends + Churches,

Just a short letter to let you know we had a very strong wind storm.

It did a lot of damage to many houses. The house where Stephen my son who is working had a room completely blow away. I'm thankful he did not get hurt.

The house where 86yr old Sister Juanita had all her roofs blow away. Many homes don't have any drinking water or electricity. Stephen's home don't have any drinking water.

We are trying to help some of our members as much as we can.

But I'm grateful none of our church members got hurt.

Please pray for our church and may God bless you.
