

# B E Y O N D

## WHY BEYOND?

### SANCTUARY AT CAPACITY

In our current space, we are unable to all worship together, expand platform ministries, or realize our growth potential.

### GUEST SERVICES EXPANSION

The limited space in the lobby prevents guests and members from making a connection, and creates crowding and security issues.

### KIDS CENTER

Just like our sanctuary, the Kids Center is at capacity. The building itself is detached from the main worship service, causing guests to feel uneasy sending their children to Kids Church. The limited space also creates tight class sizes for various age groups, and safety and security challenges.

### PRODUCTION VALUE

Our production team operates in tight quarters and the lack of space prevents team members from being able to expand creative elements for online streaming digital content.

### LEADERSHIP CENTER

Our staff and team leaders need offices, volunteer work spaces, and counseling rooms that do not conflict with other appointments or needs for space.

## BEYOND WILL:

### SANCTUARY AT CAPACITY

Provide a new sanctuary for **830 weekly worshippers** with plans for expansion to over 1,300 seats, expanded altar and platform areas to accommodate vibrant worship experiences, and a new baptism area to allow for teaching, prayer, and preparation for baptism.

### GUEST SERVICES EXPANSION

Create an **oversized welcome center** with a variety of seating areas, allowing for guests and members to socialize comfortably, enjoy a cup of coffee in our new coffee shop, and even work throughout the week.

### KIDS CENTER

Expand our Kids Center with a **12,000+ square foot space**, increasing classroom capacity, providing a centralized worship area for kids to engage in worship and the word, and allow for our church to create a Kids Day Out program to become more involved in our community while simultaneously creating revenue for the church.

### PRODUCTION VALUE

Provide a **dedicated space** for elevating the multimedia experience of our church through our production and creative arts ministry.

### LEADERSHIP CENTER

Create a new Leadership Center that would allow for teams and leaders to collaborate together in the same work environment to implement targeted ministry goals, as well as provide designated areas for pastoral and licensed counseling to be facilitated in private and professional settings.
