We are thankful for the donors that generously come along side Birchwood Christian to help us equip and train leaders for the next generation. Like other private schools, tuition alone does not cover the full cost of educating students. Fundraising and donations provide as much as 15% of BCS's annual budget for operating costs, including support for curriculum enhancements, facility improvements, salaries, professional development for teachers, and tuition assistance. Support from our community plays a vital role in not only providing an excellent academic program but also in molding our nearly 200 students into positive, engaged community members.
