

Young Navigators and COVID-19

Dear Parent,

To help minimize the spread of COVID-19 we are taking several precautions at Young Navigators that we would like to share with you. We will be changing how a few things are done to accomplish this, so we appreciate your help and understanding with this new way of operating club.

1. If your child, or anyone in your family is not feeling well, please stay home and do not bring your child to club.
2. If your child feels okay, but has other symptoms such as a cough or runny nose, even with no temperature, please do not bring them to club. We will not allow kids with these symptoms, or kids that appear to be ill in any way, to participate in club, even if they do not have a high temperature.
3. Every child (and YN Leader) will have their temperature taken upon arriving to club each week. If they have a temperature over 99.9, they will not be allowed to be at club. **You must remain on the church property until you know that your child did not have a temperature and has been let in to club. If your child has a temperature over 99.9, then your child will have to leave with you at that time.**
4. We will try to keep distance between children the best we can throughout club.
5. We will be cleaning the rooms and bathrooms each night, so to allow us to start the cleaning process kids will be moved into the central room for pickup at the end of the evening each week. Please come to the main central room to pickup your child.

It is possible that we will have to make even more changes as the year goes on, so we appreciate your flexibility and understand as we continue to do what we can to minimize transmission of COVID-19.

If you have any questions about this, please let me know.

Ben Thielemann
YN Commander
