

# Simple Cross Craft

from happyhomefairy.com

## Supplies:

Jumbo craft sticks;  
Regular-sized craft sticks;  
Assorted craft supplies like  
sequins, buttons, small beads;  
and Glue!

1. Use a small dab of glue to attach the regular-sized craft stick to the Jumbo craft stick in the shape of a cross. We didn't want to wait for the glue to dry, so we ended up using a Glue Dot for this part.
2. Squeeze white glue all over the craft stick cross.
3. Have your child place various craft supplies on top of the glue.
4. Let dry.

These would be so cute with an added ribbon to the back for them to be ornaments or even a small magnet for them to go on the fridge.

HELPING MOMS BUILD HAPPY HOMES

This project was inspired by the PreK-4 class that is down the hall from my classroom.

I love how simple it is for little ones and I especially love that it celebrates the cross and what Easter is all about!
