

Elephant #1

What Do Mormons Believe and Can They Go To Heaven?

1. Can you think of a non-spiritual example where you and someone else kind of agreed on something, but ultimately had differing viewpoints? (Think movies, tv show, “this team is the best”, best tacos, etc.)
2. Have you ever experienced something like an Online Fail that Aaron talked about? You thought you were getting one thing and ended up getting something similar but not exactly what you ordered?
3. What did Aaron say the definition of a cult was?
(A religious group that claims Christianity but veers away dramatically in core doctrinal issues)
4. Can you think of other cults? How do they veer away from core doctrinal issues?
5. **Read 1 Peter 3:15.** Why is it important to really understand what we believe? What stands out to you about the words Peter uses in this verse to communicate how we are to handle our faith?
6. Have you ever had a conversation with someone who was a Mormon? Can you remember anything from that talk?
7. What stood out to you the most about the Mormon belief system? Maybe something that was similar to what we believe or something completely different?
8. Why is an accurate view of Jesus so important?
9. Why is an accurate view of the gospel so important? **Read Galatians 1:6-8.**
10. After taking in a lot of information tonight, what thoughts do you have about:
 - defending your faith?
 - Other religious belief systems?
 - Or the truth of Christianity?
