

SUMMER

Greetings to our 2022 summer buddies...

It's almost summertime! We are excited to continue our program over the summer. Each of our 8 week summer sessions will be filled with activities to transform the lazy days of summer into the learning days of summer! Each session will provide the chance for your little ones to experience theme related vocabulary words and facts, music, science, pretend play, creative art experiences, counting, color and shapes, sounds, letter recognition, small group experiences, large group experiences, meet old and new friends, and most importantly, have fun!

All the activities in our summer sessions are carefully planned to be developmentally appropriate and are the building blocks your child needs to give them a head start to their next level of development.
