

NEWS LETTER

Lincoln Christian Church Generosity Campaign

It's Working

Our new livestreaming ministry is already paying out dividends from our initial investment. One of our **10,000 Reasons** Campaign goals was to upgrade our technology to get the Gospel out farther than we had ever reached before. That goal always had faces for us. It was always about people. New people. Lost people. People investigating Christianity. Introducing and connecting them to Jesus has always been a primary goal here, but now through the livestream, it is happening more and more.

True story: a couple from the state of Georgia started watching our livestream services at the beginning of our *Jesus*. sermon series through the Gospel of John. Why? Encouraged by friends to do it. Each week, they started tuning in. They liked it. They were learning more and more about scripture background, about faith, and about Jesus. The messages pulled more and more at their hearts until they could no longer deny they wanted to take the next step in their spiritual journey. Recently, this couple took a huge step and emailed me asking questions only a seeker would ask. Following a series of back and forth email communications, and one face-to-face over *Zoom*, they confessed Jesus as the Son of God and asked to be baptized. After discussing our options to make that happen, they made the commitment to drive to Lincoln and were baptized here in our ministry!

True story: a young family recently placed their membership with us, and now they are full-time attenders and are invested here in services. They started out with us on the livestream. They were being relocated to our area and started their church shopping online, experiencing various services from different churches in the Lincoln area. We quickly made their list of places to stop in and visit. Long story short, they chose us to be their new church home.

One of our **10,000 Reasons** goals was to offer the Gospel of Jesus to newcomers through livestreaming our worship services. It's working. Each week, we're hearing of new shut-ins watching, new people seeking a church are watching, new visitors to our city are pre-searching churches and watching, new elderly adults are watching, and new millennials are watching. Seriously, this couldn't have happened for us without your financial gifts to our **10,000 Reasons** Campaign and your faithfulness to seeing people connected to Jesus through this ministry. I'm not sure we can say it enough, but from our hearts, thank you again and again. Your gifts are working here!

Sharing in His Service,

Ron Otto
