

Have you ever come across an object that is just too hard to move? It could be that it is just too heavy. Or, it is just too awkward. Has anyone ever tried to move one of those couches that is long and has a recliner on each side? You try to move it up a set of stairs and get it in the door that is barely large enough to get a child's rocking chair in? The task is almost impossible. There are somethings that are just hard to move. This morning we are going to investigate something that is more difficult to move than a two-ton boulder or a huge couch. And it is something that all of us have.

The second lesson in our series, *Wisdom from the Wild* has us looking at a wild horse or a mule. Like last week, may we learn well from GOD'S creation.

Stubborn as a _____.

Could it be that your _____ needs to be _____?

Not our _____ but _____ be _____.

GOD says that HE will _____, _____ and _____ you.

Unscramble the letters to make a word that fits the clue.
