Updated COVID-19
Guidance

Continuing Forward

Since our last update in June we have been monitoring the COVID situation as well as the practices of our congregation and we believe some slight changes are in order. Our aim will continue to be to make decisions in such a way that helps us to minister effectively, meet the needs of our congregation, and maintain our testimony in the community.

What you will see in our quick reference guide is some slight changes to how we use our building to better meet the needs of our attendees. **Masks remain optional for all individuals at all LPC events.**

As of Sunday, August 22:

- **We will no longer be using the Gym as a worship space.** The usage of this space has significantly decreased over the last couple months to the point that it is no longer necessary to meet our current attendance. We are glad to know that it is there and can support a large increase in attendance.
- **The Commons will become a “mask optional” space, just as the Worship Center and Cafe have been.** This will provide us with needs for Worship Center overflow.
- **The Library will remain a “mask required” space during worship services.**
 - **Please do not enter the library without a mask. As this is the last remaining space for those who feel most comfortable in this context, anyone without a mask will be politely asked to wear a mask or move to any of the other seating areas.**

We will continue to monitor the COVID situation and the practices of our attendees and make changes when we believe they will help us to minister more effectively, meet the needs of our congregation, and maintain our testimony in the community.

We continue to be grateful to our congregation for the godly character and charity shown to other members and our visitors. Attendance on August 15th was over 90% of pre-COVID levels with new people continuing to join us. This is a great testimony to a community gathering to live for Christ as we worship our God and Savior. Thank you!

In Christ,
LPC Session

QUICK REFERENCE GUIDE

Changes to our existing reopening plan, organized by date

- Represents the lifting of mitigation efforts
- Represents alternative options.

Update Effective August 22, 2021

MASKING

- Masks remain optional for all individuals at all events held at LPC.

CHURCH ZONES

- The **Gym** will no longer be offered as a worship space.
- The **Commons** will become a “**mask optional**” space, just as the Worship Center and Cafe have been.

- The **Library** will remain a “**mask required**” space during worship services.

Please do not enter without a mask. Unmasked persons in the library will politely be asked to mask or move to any of the other seating areas.
