

Dear MacArthur Families,

Our spring supply lists, used to create the supply boxes purchased through the PTA, contain supplies that will be useful now at home and later when we return to the brick-and-mortar building.

Below you will find our modified supply lists which prioritize supplies needed in a virtual learning environment. Please also see [this link](#) for information on the distribution of the ACPS-provided tablets and Chromebooks for all K-3 students and newly enrolled 4-5 students.

This is a challenging economic time for many. Please rest assured that we are committed to working with all families to ensure equitable access to these supplies, as well as reliable wi-fi and internet access. Next week, please communicate directly with your teacher should you have any need for school supplies or internet access. Our teachers, administrators, and Student Support Team will work collaboratively to safely coordinate distribution of supplies over the course of September.
