

MY TEACHABLE MOMENTS PLAN

Capturing and leveraging opportunities in everyday life for the purpose of leading our kids to believe in, love, and follow Jesus. Family discipleship moments are about being prepared to take advantage of opportunities to communicate God's truth in whatever circumstances come your way.

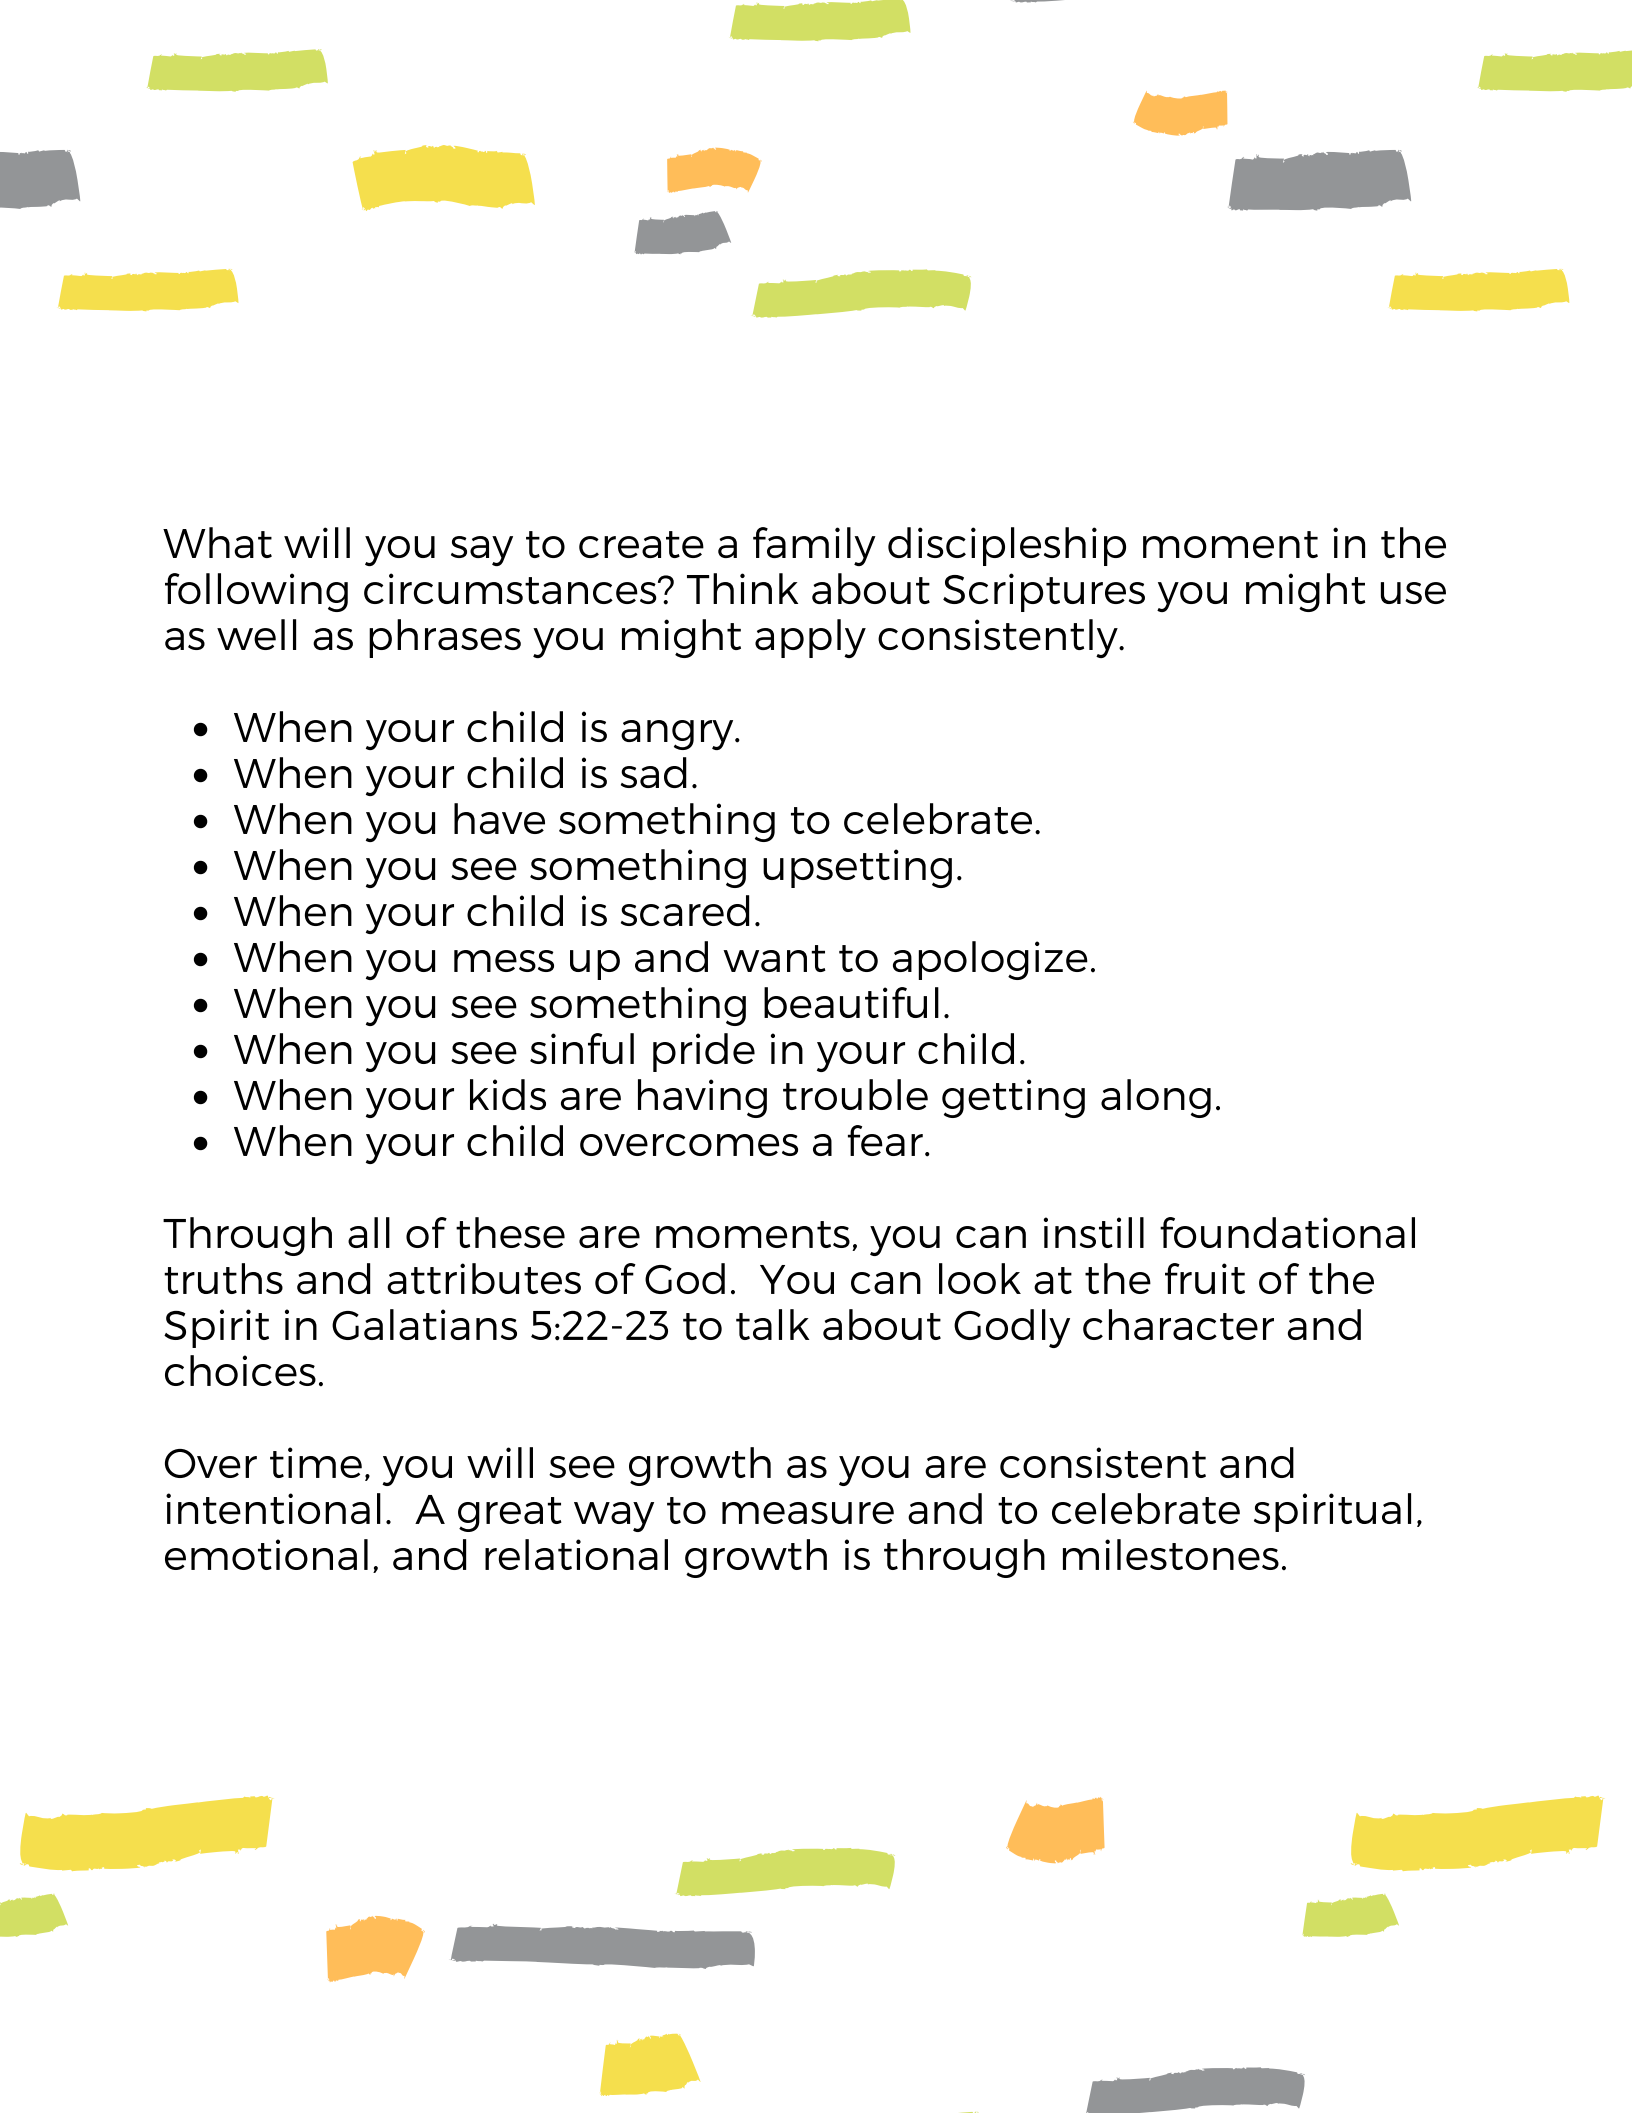

- **Teachable Moments:** real-time, age-appropriate discussions for kids to learn about themselves, God, and the wise things to do (Ages 2+)
- **Jesus Moments:** Introduce your kids to Jesus and lead them to believe in Jesus as their Savior. (Ages 4+)

Questions to consider as you create moments:

What are the attributes of God you'd like your kids to be well aware of?

What kinds of circumstances might you be able to leverage to foster those traits? What will you say?

What will you say to create a family discipleship moment in the following circumstances? Think about Scriptures you might use as well as phrases you might apply consistently.

- When your child is angry.
- When your child is sad.
- When you have something to celebrate.
- When you see something upsetting.
- When your child is scared.
- When you mess up and want to apologize.
- When you see something beautiful.
- When you see sinful pride in your child.
- When your kids are having trouble getting along.
- When your child overcomes a fear.

Through all of these are moments, you can instill foundational truths and attributes of God. You can look at the fruit of the Spirit in Galatians 5:22-23 to talk about Godly character and choices.

Over time, you will see growth as you are consistent and intentional. A great way to measure and to celebrate spiritual, emotional, and relational growth is through milestones.
