Greetings Due West Family!

We thank you for your faithfulness during this time of digital worship. As things continue to develop around reopening of businesses and other places, our Annual Conference is strongly encouraging all United Methodist congregations to wait until June 28th. We are currently planning a special “Drive-In” worship service on May 24th. Please watch our website and our Facebook page for details on time, location and other instructions.

Our goal when we reopen is to limit person-to-person contact and keep things as safe as possible. During our initial stage, expect the following requests and circumstances:

- We will continue to offer online worship. We want to encourage everyone in high-risk categories to continue worshipping from home.

- We will meet with limited numbers in the South Campus where we can easily arrange chairs and have designated entrance and exit doors.

- While we will have worship, we will not be able to offer nursery, children’s church or Sunday School classes during the initial stages of reopening. Coffee stations and fellowship time will also not be available. We sincerely hope to phase those in as soon as we can.

- We ask that you observe social distancing requirements (remaining six feet apart) and wear face masks. (Please bring your own if possible!)

- We ask that you remain in your car until 15 minutes before the service (to give us time to sanitize the space before and between services) and understand that restrooms will be available for emergencies only.

- We will not pass offering plates or distribute bulletins. There will be a designated place for you to place your offerings. Our order of worship and announcements will be communicated through our large screens.

Thank you for continued support of Due West through this time. Thank you for your continued prayers and patience as we move towards reopening. Please take a few moments and click the link below to give us your feedback as we make our reopening plans.
