

# First United Methodist Church

## Livestream Viewing Options

### 1. Viewing with a computer (PC or Mac) or a iPad or smartphone (Apple or Android) using the **internet**:

Select the web browser on your device. (i.e. Edge, Explorer, Chrome, Firefox, or Safari or other). Type [fumcgb.org](http://fumcgb.org) into the website selection field (URL). Navigate to the church's website. When the website appears, click on the box that says "View Livestream & Read Bulletins". This will take you to the viewer page. When the viewer appears, you should see a countdown timer showing time remaining until the service begins.

**IMPORTANT:** When the timer reaches zero, **press the white triangle button in the bottom left** of the livestream viewer frame to begin playing. In the lower right of the frame is a 'Live' button. The red light should be lit when viewing live. If not, tap the live button. If you don't hear anything, double check to confirm the computer audio is not muted.

### 2. Viewing with an iPad or smartphone (Apple or Android) using the **Church App**:

Download the church's app by going to the app store (either Google or Apple). In the search field, type in "First UMC Green Bay". The church's app should appear. Download the app. (There is no cost to do this.) Once the app is downloaded and installed, open the app by clicking on the icon. Scroll to the section that is titled "Worship Livestream". Click on this section and this will take you to the video viewer. You should see a countdown timer showing the time remaining until the service begins. When the counter reaches zero, the service should begin. If you don't hear anything, double check to confirm the device's audio is not muted.

Additionally, after the service, navigate to the settings section of the app. In the settings menu, go to notifications and turn on General. In the future you will receive a notification of the live service starting. For simple access, tap on the notification banner and it will take you directly to the livestream viewer.

### 3. Viewing on a TV (**Roku or AppleTV**):

Configure the TV for watching Roku or AppleTV by selecting the right input source. Select the app store on the TV and search for "First UMC Green Bay". When it appears, click on the app to download and install the app. (There is no cost for the app.) Once installed, click on the app icon to open the viewer. Select current services. Once the viewer appears, click on the "watch" button and the viewer to start the broadcast. Set the volume level using the TV's remote control.

### 4. To view using **YouTube**:

Go to a web browser or YouTube app. In the search field, type in "fumcgb".

Note: Not all special services (i.e. funerals, weddings) will be shared on YouTube.
