

A TOOTHACHE SHOULD NOT BE ON YOUR LIST OF TROUBLES.

Due to the COVID-19 pandemic, it is more important than ever to avoid going to the hospital emergency room, unless you have a life-threatening emergency.

If you are in dental pain or need urgent dental care, call the Delta Dental of Oklahoma Foundation HelpLine:

405-607-4747

A dental care navigator will guide you to resources for care.

If you cannot afford the necessary dental care, you may qualify for financial assistance from our COVID-19 Pandemic Dental Emergency Response Fund.*

Our HelpLine is not an emergency hotline. Calls are returned Monday - Friday, 8:00 a.m. - 5:00 p.m.

If you believe you have a life-threatening dental emergency, call 911 or go to your local hospital emergency room.
