I will be exhibiting 5 works (pictured right) in the smART Exhibition at 47 Miller Crescent, Mount Waverly.

(L to R) Piece, Mt Werong, West, Mount Sabine, Depth

## Awesome Artist of the week!!

### Graham Eldridge

Graham is a Sydney based expressionist artist and the reason I adore his work is that I can relate to the strong use of geometry and bold use of colours. You can see more of Graham's work by visiting his facebook page [Click here](#).

(Pictured Left) Ricochet

## Weekly Watch

This week in my VCA Painting Techniques class I was introduced to "Egg Tempera", a painting technique from Medieval times. I started by separating an egg and adding a little water to make an emulsion with a perfect consistency. I then added pure pigment powder and mixed it "a lot" to make the very old style paint medium. The mixture dried immediately when it touched the gesso board and it's like nothing I have ever used before. Although it was different, I enjoyed it immensely. I also learned how to apply gold leaf and the photo on the right is my finished piece.
