Dear Teacher,

Your student listed above is also a student of *Satori Martial Arts of Maumee* Martial Arts & Character Development Program. As part of our curriculum, we encourage our students to strive for academic excellence, as well as do their best to demonstrate respectful, responsible and positive behavior at school.

To support their academic and personal growth process, before this student can advance in our school, we require the student to have you - their teacher - return this form back to the student, with your comments about how this student has shown great effort and character at school and recommendations on how to improve their score. To advance to the next level in our martial arts studio, the student will need to hand in this form before their Group Testing Event.

Here are just some of the many ways the student can get the teacher's recommendation – Please score on a scale of 1-10 (10 being the highest) and recommendations for the student on ways and points to work on to increase score next time. We are not looking for perfection, but rather growth and improvement in these areas:
